  - The number of cases experiencing adverse reactions has been reported to be 700 per 100,000 vaccinations. Currently, we see 16 serious side effects per 100,000 vaccinations, and the number of fatal side effects is at 4.11/100,000 vaccinations. For three deaths prevented by vaccination we have to accept two inflicted by vaccination. **Conclusions: This lack of clear benefit should cause governments to rethink their vaccination policy.**

    > "Because of their very small size, nanoparticles (NPs) are capable of entering the human body by inhalation, ingestion, skin penetration or via injections; in this case, it may be assumed that NPs have capability to interact with intracellular structures and macromolecules for long periods. One particularly important toxicological endpoint is genotoxicity, as large-scale gene expression analysis provides a logical approach to study the detailed mechanisms of NPs toxicity. Recent studies have shown that NPs can changes gene expression, thus, altering cellular functions or even NPs could be the cause of toxicity."

Comirnaty

  - **Navy Seal 1 v. Biden—Declaration/Affidavit of Robert Malone, MD, MS**
    - Declaration / Affidavit
    - Curriculum Vitae (CV)
    - Exhibit B1
    - Exhibit C1
    - Exhibit D1
    - Exhibit F1
    - Exhibit F2
  - The FDA plainly indicates that BioNTech's COMIRNATY is not available in the United States: "Although COMIRNATY (COVID-19 Vaccine, mRNA) is approved to prevent COVID-19 in individuals 16 years of age and older, there is no sufficient approved vaccine for distribution to the population." (Pfizer Letter at 6 n.12.)
  - The CDC has stated that "**COMIRNATY products are not orderable at this time.**" The CDC also included a statement from Pfizer: "'At present, Pfizer does not plan to produce any product with these new NDCs and labels over the next few months while EUA authorized product is still available and being made available for U.S. distribution. As such, the CDC, AMA, and drug compendia may not publish these new codes until Pfizer has determined when the product will be produced with the BLA labels.'"
  - The National Institutes of Health (NIH) also posted the above statement from Pfizer.
  - Below are three press releases that include the August and September FDA letters stating that COMIRNATY is not available.
    - FDA Does a Bait and Switch with COVID Shots
    - No FDA-Approved COVID-19 Shots Available
